## *Glidewire Advantage*<sup>™</sup>

Peripheral Guidewires

### Two Jobs. One Wire.

Clinical Advantages from a New Innovative Peripheral Wire

Learn how to gain clinical advantages as well as efficiency in peripheral cases through the use of a single wire to both cross the lesion and deliver an interventional device. Terumo's Glidewire Advantage<sup>™</sup> Peripheral Guidewire combines Terumo's well-established Glidewire<sup>®</sup> construction on the distal 25 cm with a unique stiffer PTFE-coated proximal end, providing the operator with excellent tactile feel and support for secure device placement.

#### TUESDAY, March 16
