

Terumo Opportunities at the Society of Interventional Radiology Meeting

**Terumo Sponsors Two Educational Symposia
at Society of Interventional Radiology Meeting
March 13-18, Tampa, Florida**

Join Terumo in two sponsored symposia at the Society of Interventional Radiology (SIR) meeting, highlighting the company's industry-leading Glidewire Advantage™ Peripheral Guidewire and its AZUR® Peripheral HydroCoil®. These programs are offered as part of SIR's inaugural-year Product Theater.

Breakfast Symposium

Terumo Glidewire Advantage. Two Jobs. One Wire.

Date: Tuesday, March 16

Time: 6:30 am - 7:30 am Breakfast Symposium*

Location: Product Theater (Exhibit Hall, Booth #122)

The symposium focuses on gaining clinical advantages in peripheral cases through the use of an innovative peripheral hybrid wire technology that enables an operator to use a single wire to both cross the lesion and deliver an interventional device.

*Continental breakfast will be served.

Lunchtime Symposium

AZUR Peripheral HydroCoil: Expanding the Horizon in Coil Embolization Technology

Date: Wednesday, March 17

Time: 12:15 pm - 1:30 pm Lunchtime Symposium**

Location: Product Theater (Exhibit Hall, Booth #122)

The symposium features a physician panel presenting embolization cases that provide practical insights into the advantages of the AZUR system, including controlled deployment, mechanical occlusion, and increased volumetric filling.

**Boxed lunches available in exhibit hall. Please pick one up and join us.

We also invite you to visit us at the company's exhibit booth #1423.
