

# WE LOOK FORWARD TO PARTICIPATING WITH YOU AT TCT CONNECT 2020!

## Thursday, October 15

10:00 AM – 11:00 AM EDT

### Transradial for Peripheral Interventions

- ◆ Why radial access for peripheral interventions, what is driving the switch from femoral?
- ◆ Best practices and considerations for successful radial access, including available devices
- ◆ Considerations when choosing patient, access strategies. and when not to go radial

#### Faculty:

- ◆ Dr. Ankur Lodha, M.D. Interventional Cardiologist, Cardiovascular Institute of the South
- ◆ Dr. Amit Srivastava, M.D., F.A.C.C. Interventional Cardiologist, Bay Area Heart Center

## Friday, October 16

10:00 AM – 11:00 AM EDT

### Same-Day Discharge, if Not Now, When?

- ◆ Interactive panel discussion
- ◆ COVID has heightened concerns regarding potential exposure and thus patients are now hesitant to spend any more time in the hospital than is necessary.
- ◆ Our panelists will discuss their journey, strategy and utility of same-day discharge and its impact in their local, regional and national programs

#### Faculty:

- ◆ Ronald Caputo, MD, FACC, FSCAI – Moderator and panelist, Interventional Cardiologist, Levine Heart and Wellness, Naples, FL
- ◆ Mamas A. Mamas, MD, FRCP, FSCAI – panelist Professor of Cardiology, Keele University, Staffordshire, England
- ◆ Mary Osborne, RN, MBA, MSN, CPHQ – panelist System Director National Cardiovascular Service Line for Common Spirit Health, Lexington, KY
- ◆ David Wohns, MD – panelist, Chief of Cardiology Spectrum Health Medical Group, Grand Rapids, MI

## Saturday, October 17

7:00 AM – 8:00 AM EDT

### The Power of Big Data for PCI in Bifurcation Treatment Practice

- ◆ Review cases with bifurcation lesions, Medina class 1.1.1, will discuss lesions/vessel morphology and treatment strategy, including provisional stenting with one and two stent techniques; and frequency of changing initial strategy and key considerations.
- ◆ How to optimize bifurcation technique: What have we learned from 4,395 patients with bifurcation lesions treated with contemporary DES? Look at the value of large, real-world data for PCI practice, the penetration of radial access and expedited and same day discharge in complex PCIs worldwide.

#### Faculty:

- ◆ Juan Granada, MD, President & CEO Cardiovascular Research Foundation, Columbia University Medical Center, New York
- ◆ Goran Stankovic, MD, Professor of Cardiology, University of Belgrade, School of Medicine, Director, Institute for Cardiology Clinical Center of Serbia, Serbia
- ◆ Bernard Chevalier, MD, Ramsay Générale de Santé, Institut Cardiovasculaire Paris Sud, Massy, France
- ◆ George Dangas, MD, Professor of Medicine & Surgery Icahn School of Medicine at Mount Sinai, Cardiovascular Institute, Mount Sinai Medical, New York
