

Glidewire Advantage Track™

Peripheral Guidewire

LEVERAGE SUPERIOR PERFORMANCE

For your demanding CLI procedures

Available in 0.018" & 0.014"
diameter sizes

The addition of **GLIDEWIRE ADVANTAGE TRACK™** Guidewire to your PAD/CLI toolkit provides you with **superior performance^{1,a}** for your most challenging cases:

- **Superior Pushability:** High deformation resistance provides superior pushability to access and cross challenging above-the-knee (ATK) & below-the-knee (BTK) anatomy and lesions
- **Superior Trackability:** Provides superior ability to track and navigate anatomy of the vasculature
- **Best-in-Class Durability:** Provides superior shape retention for navigating small, tortuous vessels
- **Superior Lubricity:** TERUMO Glide Technology™ hydrophilic coating^b provides superior lubricity to support ease of progression through vessels
- **Enhanced Visibility & Selectivity:** Gold coil tips enhance visibility in conjunction with a 25 cm distal taper designed to minimize vessel trauma and improve selectivity of vessels

^a When compared to Abbott Hi-Torque Command 18 LT and Boston Scientific V-18

^b Referring to the distal portion of GLIDEWIRE ADVANTAGE TRACK™ wire which is GLIDEWIRE®

PUSHING BOUNDARIES

Terumo Interventional Systems is **committed to your success** with innovative procedural solutions and ongoing support for your most challenging cases.

We are relentlessly seeking new ways to help you achieve **better outcomes for more patients.**
